Complete Your Digital Life. Toast[®] Everything.

Toast 7 is the best way to save, share and enjoy a lifetime of digital music, movies and photos on CD and DVD. Hear your iTunes tracks and classic LPs and tapes on an audio DVD. See your iMovie productions on widescreen DVD or DivX discs, and turn your iPhoto library into stunning HD slideshows. Save and secure your precious files. Copy your audio CDs, movies and DVDs.

Save It

- **New!** Span large files and folders across multiple CDs and DVDs. Easily restore an entire disc set or a single file.
- **New!** Create simple hybrid discs with unique contents for Mac or PC users.
- **New!** Easily access all your music, photos, and movies with the integrated iLife media browser.
- **Improved!** Schedule automatic backups to CD, DVD, or network storage.
- **Improved!** Burn any file or folder directly from the desktop with Toast It[™].

Hear It

- **New!** Enjoy audio DVDs with over 50 hours of music and on-screen menus and smart playlists for easy navigation to your favorite song. Add photos and videos for a complete multimedia experience.
- **New!** Add rich Hollywood-style Dolby[®] Digital sound or full-quality 96 kHz, 24 bit audio.
- **Improved!** Digitize and restore your vinyl LPs and tapes.
- **New!** Instantly capture live audio with the desktop recorder Dashboard widget.¹
- **New!** Convert audio files to OGG, FLAC, AAC and more.
- **Improved!** Design personalized disc labels, case covers, and inserts.

¹ Requires Mac OS X v10.4

Copy It

- **New!** Compress an entire 9 GB dual-layer DVD video to a standard 4.7 GB recordable DVD disc.
- **New!** Maximize video quality and available disc space by extracting just the main movie, language and audio format.
- **New!** Import and copy from VR discs created in set-top DVD recorders and camcorders.
- **Improved!** Save disc images to your hard disk, including cross-platform BIN/CUE images, and mount images to create virtual disc drives — avoid disc swapping and extend laptop battery life.

See It

- **New!** Download DivX[®] movies and create DVDs to watch in your living room.
- **New!** Turn iMovie HD or Final Cut HD projects into DivX HD discs.²
- **Improved!** Create Video CDs and DVDs from your photos and videos. Now with selectable menu styles, 16:9 widescreen format, and chapter sub-menus.
- **New!** Fit-To-DVD[™] encoding maximizes video quality and uses all available disc space.
- **New!** Turn still photos into stunning multi-image HD slideshows with collages, motion effects, transitions and background soundtracks.
- **New!** Convert video files to DivX, 3GPP, H.264 and more.

² DivX HD discs can be played in a Mac/PC or a DivX Certified DVD Player
